Child Labor Laws

Child Labor laws dictate:

- the hours youth may work
- how many hours may be worked per day/week
- the time of the year youth may work
- types of jobs or occupations they may have
- when work permits are required.

In Iowa, both federal and state child labor laws may apply. Sometimes there are differences between the federal and state laws, and it is important for employers to understand which laws apply to specific circumstances. Access www.iowaworkforce.org/labor/childlabor.htm for a review of both state law versus the federal law.

Work Permits and Certificates of Age

Iowa law requires youth to obtain a child labor form (work permit, form 62-2203) from an issuing officer to give to employers. The employer needs to complete the employer portion of the child labor form (right side of the work permit) stating the types of work to be done and the hours to be worked. The parent, along with the youth, signs the form and the youth returns it to the issuing officer for final review. If the form has been satisfactorily completed by all the parties, the issuing officer completes the last portion of the form, forwarding copies to the employer, the Division of Labor, and the parent.

A work permit applies to minors who are **14 or 15 years old** for most jobs in Iowa. Youth who are **10 through 15** must have street trade permits to deliver newspapers or perform any other street occupations such as selling items door-to-door. Minors who are **12 through 16 years old** working migrant labor must also obtain a work permit.

Employers may require a Certificate of Age for youth **who are 16 and older**. Having a valid Certificate of

Age on file for each of your **16 or 17 year old** employees protects both the employer and employee.

Work permits and Certificates of Age are issued by local school officials or at Iowa Workforce Development Centers. Hours of work do not need to be specified for the Certificate of Age unless the work involves delivering goods or transmitting messages.

The young worker provides identification to prove his/her age before the form is valid. Acceptable evidence of age includes a certified copy of the minor's birth certificate, passport, or certified baptismal record. Birth certificate copies are available from the county of birth or state health department in Iowa. If none of these proofs of age can be obtained, documentation provided by the federal government may be used or a physician may certify that, in the physician's opinion, the applicant for the work permit is **14 years of age or older**.
