

Teach Your Way:

Open Source Ag Health and Safety Curriculum

Invest In Your Health

Educate. Prevent. Protect.

Classroom Solutions for Instructors

The Invest in Your Health Program is needed to address:

1. Farmers are an under-served population
2. Training for an estimated 265,600 non-resident youth were hired in agriculture (2014)
3. Young workers were 7.8 times more likely to be fatally injured in agriculture when compared to all other industries combined (2016)
4. National FFA survey on ag education topics taught revealed that no formal classes on ag healthy and safety were conducted. (2018)

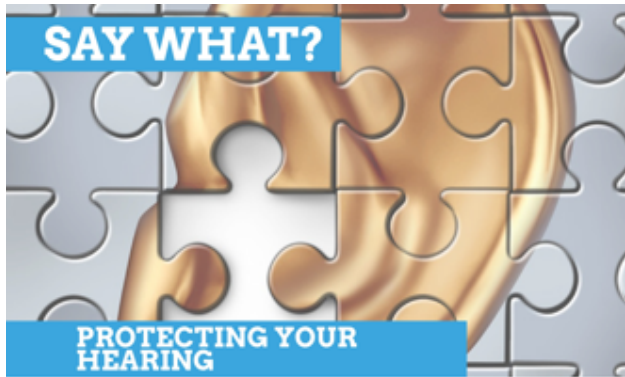

Learning objective for this presentation:

1. Participants will be able to identify up to six safety topics and its relevance to youth and young adults in agriculture.
2. Participants will be able to access key resources from AgriSafe Invest in Your Health curriculum to aid in classroom instruction.

- AgriSafe offers this Train-the-Trainer series to anyone who works with youth (ages 14-23 years).
- AgriSafe is committed to train safety and health professionals who wish to teach IYH trainings in their classroom. Under our open share platform, once certified, you are free to use the training materials.
- The series of modules will walk you through 6 target areas and includes an instructor guide after completing each topic.
- IYH training modules aim to educate, prevent and protect young farmers by providing them with the tools they need to stay safe and healthy.
- These Train the Trainer courses are designed for teachers, Extension staff, 4H and FFA leaders and others who work with young adults.
- Our end goal is to build the capacity of rural educators and leaders to train young workers.

Activities & Curriculum for Students

Instructor Guidebook: Say What?!

This Train the Trainer course is designed for teachers, Extension staff, 4H and FFA leaders and others who work with young adults.

The young agricultural producer works in an environment with noise hazards. Noise-induced hearing loss is preventable but unfortunately use of hearing protection among youth is not common.

This program will highlight the pathophysiology of hearing loss, the importance of preventing noise induced hearing loss and share *Invest in Your Health* training materials and classroom activities to teach hearing loss prevention.

Instructor Guidebook Includes:

- On-Demand Webinar Link
- Presentation File Link
- AgriSafe Decibel Hunt
- Additional Resources for Instruction

MACHINERY
Personal Protective Equipment

GRAIN
Personal Protective Equipment

LIVESTOCK
Personal Protective Equipment

ACTIVITY INSTRUCTIONS:

1. Examine the figure in the picture - what protective gear do you think he/she should use when working in grain?
2. Draw a line from the protective equipment you need and place on the picture of the worker. Remember some choices will be better than others!
3. Draw an X through the ones you did not choose. When you are finished, be prepared to explain your choices.
4. Now, on the back side of this page, write in the protective equipment you would need when working in this area.

Tracking Zoonosis Bingo

AgriSafe Network created the Tracking Zoonosis Bingo game to assist Ag Educators in the instruction of major Zoonotic diseases common in agriculture.

Materials include:

- Bingo cards for students
- Bingo question/answer cards for instructors
- AgriSafe Zoonosis fact sheet

AgriSafe offers Invest in Your Health Trainer Exchanges where educators can be certified to train on five AgriSafe modules (targeted for ages 16-23). AgriSafe provides the course instruction and training materials. For more information on the Train the Trainer courses designed for teachers, Extension staff, 4H and FFA leaders and others who work with young adults visit: www.agrisafe.org/invest-in-your-health-program
