## National Steering Committee

The SAY Project National Steering Committee (NSC) was developed in 2014 and meets on a biannual basis to provide input regarding youth farm safety programming to the USDA-NIFA. The NSC developed the belief statement and guiding principles for youth involved in agriculture which has been endorsed by 30 organizations. This committee is charged with exploring opportunities for long-term sustainability of the SAY program and the promotion of SAY products.

## National Young Worker Ag Safety Day

The SAY Project hosts the National Young Worker Ag Safety Day at the National FFA Convention. This event raises awareness in students by means of a safety pledge and interactive ag safety demonstrations. FFA members complete ag safety stations. The ag safety area is promoted by the SAY Project and National FFA.

FFA students signing the safety pledge at the National FFA Convention

## Instructional Resources

Dr. Rebecca Lawver, Associate Professor at Utah State University, provides instruction on navigating the SAY National Clearinghouse.

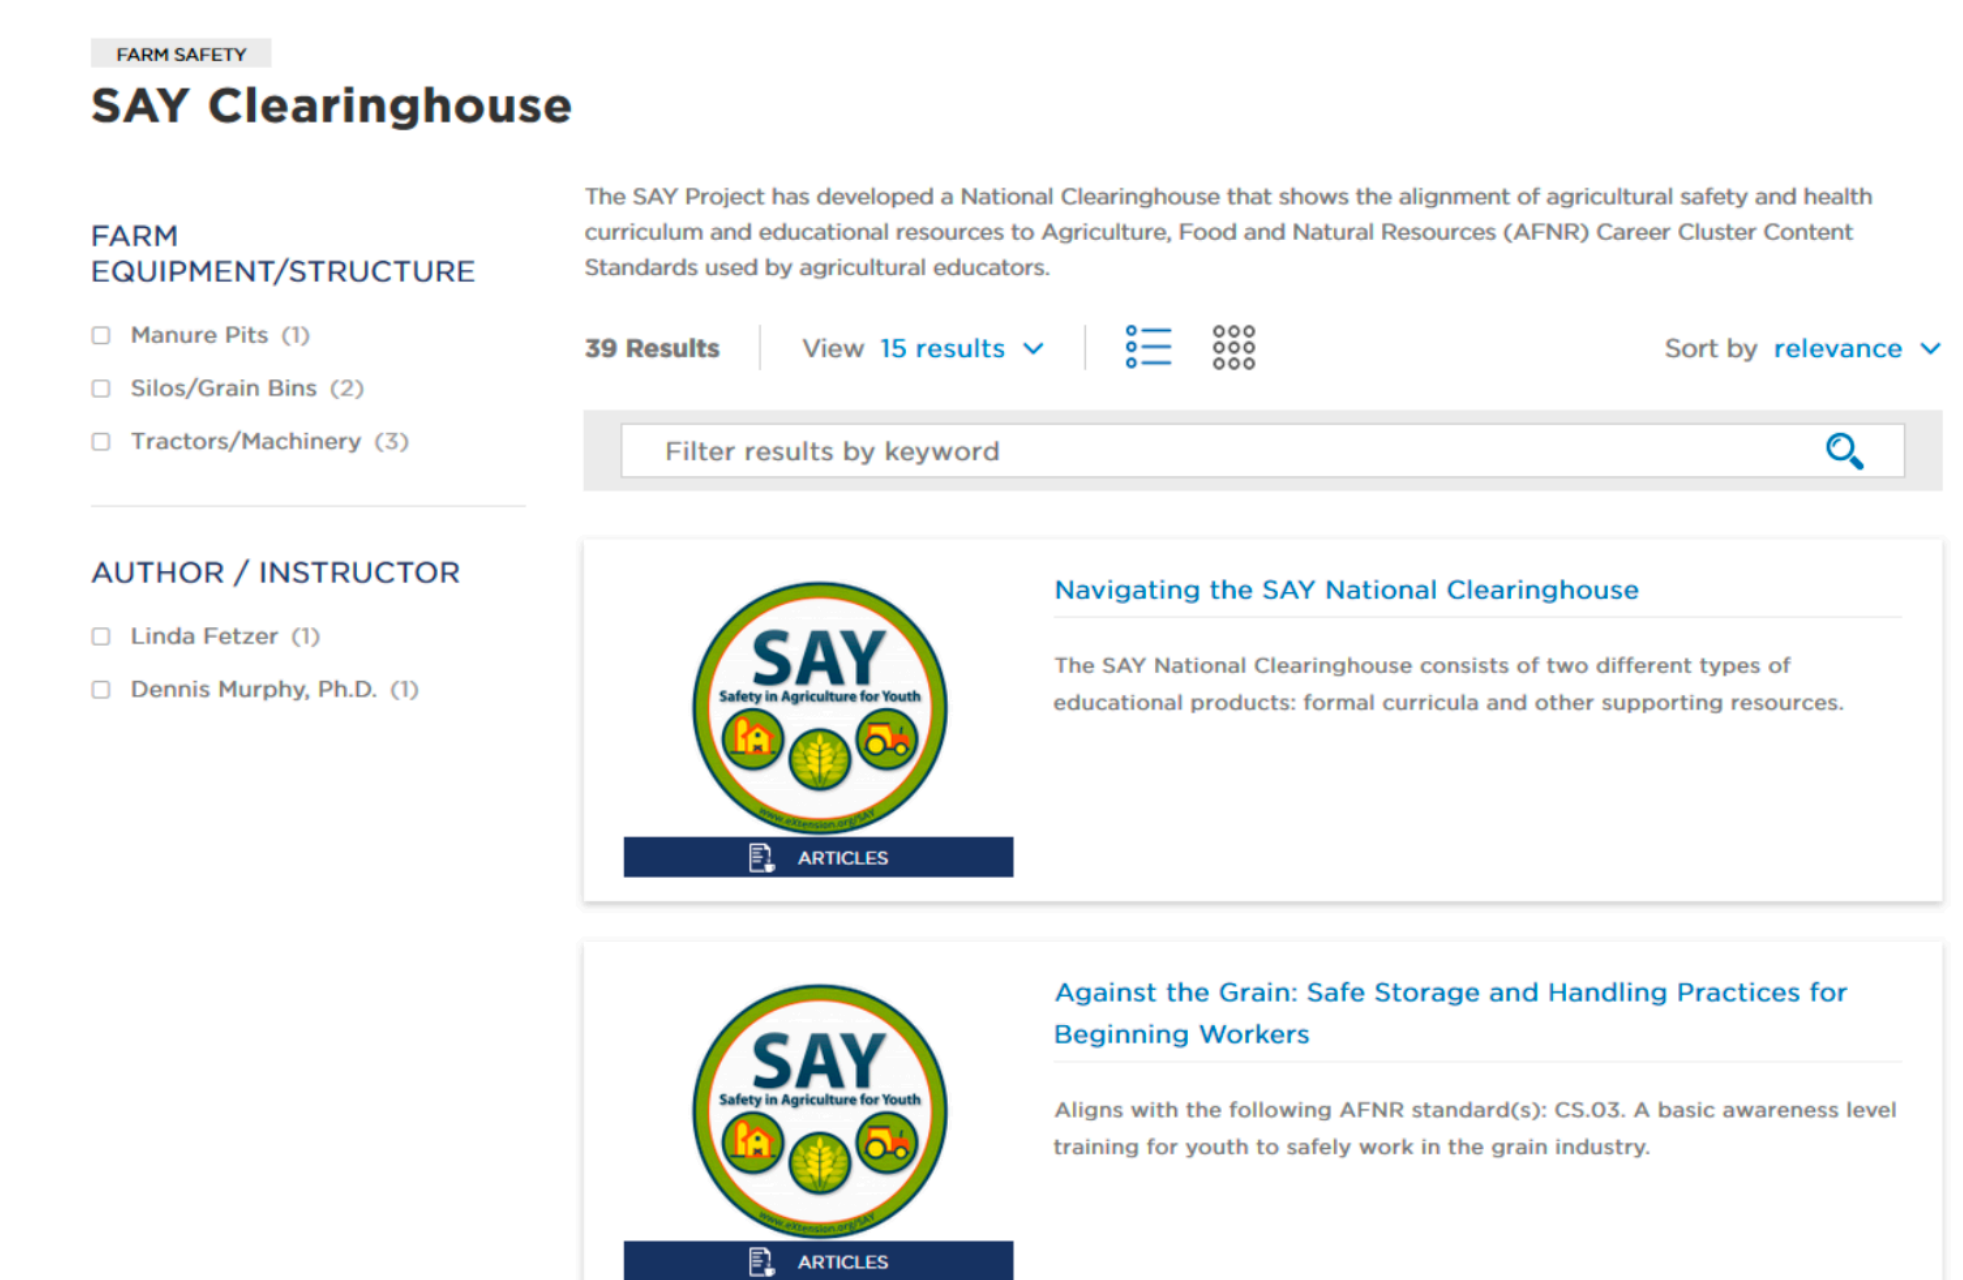

Instructional videos and teaching guides pertaining to the SAY National Clearinghouse have been developed for agricultural educators working with youth. These videos and guides serve as outreach tools to assist educators with integrating curriculum resources available through the SAY National Clearinghouse into existing formal and informal educational programs.

## SAY National Clearinghouse

The SAY National Clearinghouse is a one-stop location for agricultural safety and health curriculum and resources. Curriculum includes learning goals/objectives, subject matter content, and an evaluation. Other supporting resources lacks one or more components of a curriculum. In the Clearinghouse, curriculum and resources are aligned as high, medium or low with Agriculture, Foods and National Resources (AFNR) standards related to agricultural safety and health. The Clearinghouse provides a description, alignment, and directs people to the website where the curriculum or resource is located.

| Curriculum  | AS.02 | CS.03 | ESS.01 | ESS.05 | PS.03 | PST.02 |
|---|-------|-------|--------|--------|-------|--------|
| Against the Grain: Safe Grain Storage and Handling    |       | M     |        |        |       |        |
| AgSafety4U  | H     | M     | L      | M      | L     | M      |
| Animal Safety   | M     | L     |        |        |       |        |
| ATV Safety  |       | M     |        | L      |       | M      |
| Blind Spots and Peripheral Vision                     |       | L     |        |        |       | L      |
| Blind Spots and Skid Steers                           |       | L     |        |        |       | L      |
