

June Update from the Field

Hi everyone,

We hope that everyone continues to stay safe and healthy during the summer months, especially as we are experiencing our first of many high temperatures this week. We have avoided creating more COVID-19 content to cut down on some of the noise that has existed surrounding the virus but have chosen to round up and amplify three COVID-19 related agriculture documents put out by the CDC, Iowa Department of Public Health/Iowa Work Force Development and the Upper Midwest Agricultural Health and Safety Center. Instead of our typical peer-reviewed literature we urge you to check out these sources.

If you have any questions or comments reach out to me at smcmilln@uiowa.edu
